## Major Ear Surgery Observations Documentation

### Care Delivery

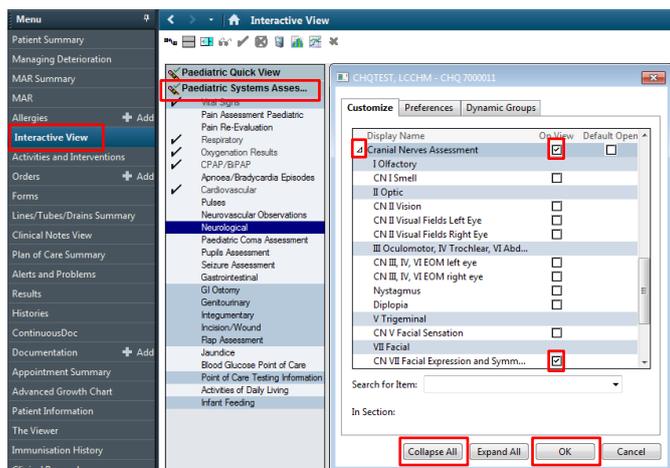

#### Quick reference guide

In addition to normal vital signs assessment documentation, all major ear surgery patients require assessment and documentation of facial nerve and wound post operatively.

#### Customise Interactive View

To setup the documentation for facial nerve observations on admission:

1. Navigate to *Interactive View* from the *Menu*
2. Open *Paediatric Systems Assessment*
3. Click the *Customise* icon  to customise the view
4. Click *Collapse All*, locate the *Cranial Nerves Assessment* and select *On View*
5. Expand the heading using the arrow beside *Cranial Nerves Assessment*, and **deselect** irrelevant fields. Select *On View* for *CN VII Facial Expression and Symmetry*.

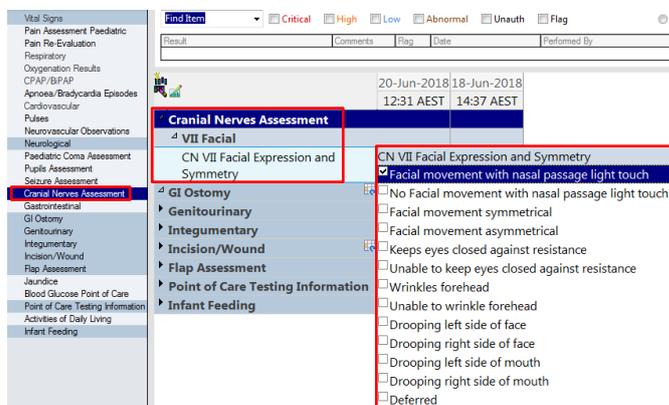

6. Select *OK* to save changes

#### Document Observations

Patients who are post bilateral major ear surgery may experience bilateral facial palsy if both facial nerves incur damage.

To document facial nerve assessment:

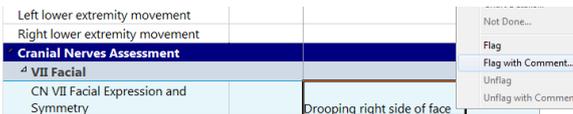

1. Navigate to *Interactive View* from the *Menu*
2. Open *Paediatric Systems Assessment*
3. Select *Cranial Nerves Assessment*
4. Double click in the *CN VII Facial Expression and Symmetry* data field
5. Select the most appropriate statement from the available list

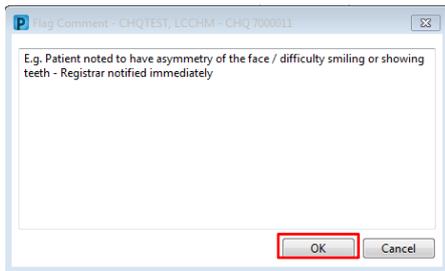

#### Adverse Observations

**Note:** Any adverse observations identified should be flagged with a comment and ENT Registrar must notified immediately.

1. Right click on the documented assessment and select *Flag with Comment*

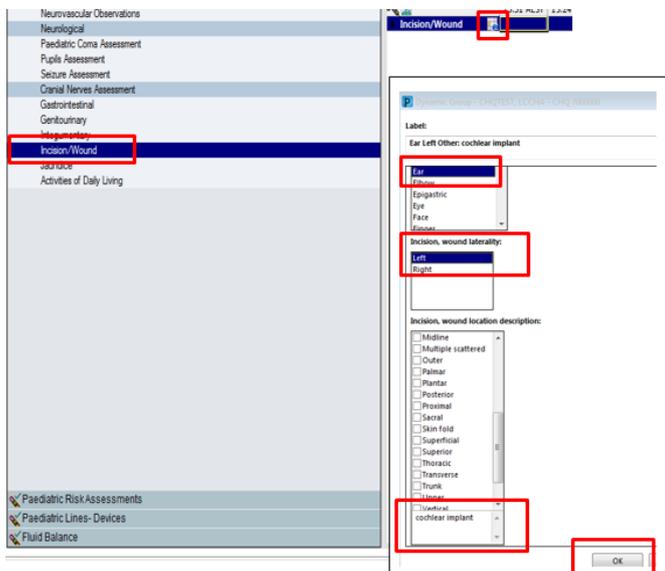

### Wound Documentation

To set up the documentation for Wound Observations on admission:

1. Navigate to *Interactive View* from the *Menu*
2. Open *Paediatric Systems Assessment*
3. Click *Incision/Wound*
4. Create a label for the *dynamic group*
  - a. Enter the details of the surgical wound – location, left or right, surgery type.
  - b. Click ok

5. Document observation of wound against the appropriate data field within the dynamic group.

**Note:** Report any wound observation concerns to the ENT Registrar

### Major Ear Personal PowerPlan

A specific regime of observations are required for post-operative major ear patients. To ensure the correct frequency of observations are conducted, the “Major Ear” PowerPlan is to be initiated post-op.

To save the plan as your favourite and allow for future use, complete the following steps:

1. Select Patient Summary from the Menu

2. Select the *Discharge* tab
3. Select the *New Order Entry* widget
4. Select *Shared*
5. Search for the user *Jodie Ballantine* and select *My Plan Favourites*

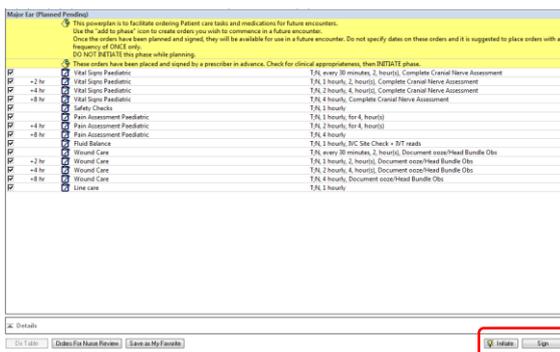

6. Select **Order** next to the  Major Ear PowerPlan – a green *orders for signature* box will populate in the top right hand corner 
7. Select the  and select Modify
8. Select *Save as my Favourite* and **OK**

### Placing orders from your favourites (Personal PowerPlan)

1. Navigate to the *Orders* tab and select **+Add**
2. The plan will be in your favourites folder 
3. Select the 
4. Open the *My Favourite Plans* folder
  -  Personal Plans
  -  My Favorite Plans
5. Select the *Major Ear* PowerPlan and **Done**
6. Review the orders, select *initiate* and then *orders for signature*

7. Review the orders and then select *sign*
8. *Refresh*
