

Mission & Values Statement

OUR VISION

To provide excellence in comprehensive care for adolescents & young adults aged between 15-25 year olds diagnosed with cancer.

OUR MISSION

Through a coordinated statewide multidisciplinary approach, we provide adolescents and young adults with cancer, their families and carers with specialised medical, psychological and nursing care.

OUR COMMITMENT

To offer the best: safe, expert, age appropriate treatment, care and support for young people with cancer regardless of their place of residence in Queensland.

CORE VALUES

Our core values guide our actions to help us achieve our mission.

Inclusivity

We work towards accessible care for all young people with cancer regardless of hospital setting or location.

Integrity

At all times we act honestly, treating all people with dignity and respect.

Teamwork

We recognise the importance of teamwork and collaboration with consumers, health professionals, and across support services. Through teamwork, goals can be turned into accomplishments.

Innovation

We strive for discovery, to develop our knowledge, and embrace creative solutions through education, research and clinical expertise.

Empowerment

We work to build capacity and confidence within the community to advocate for the needs of young people with cancer.

Accountability

We remain transparent, providing accurate timely reports and accept responsibility for our decisions.
